Sewer Rates:

Single Family Residential:

\$14.00 for the first 2000 gallons (minimum) plus \$3.21 per 1000 gallons thereafter.

Consumption rate for sewer billing is determined by averaging the customer's water consumption for the three month period from November 20th through February 20th each year, and goes into effect for the April billing cycle. New customers will use the District wide average for single family dwellings until the next averaging period.

Commercial:

\$18.00 for the first 2000 gallons (minimum) plus \$3.21 per 1000 gallons thereafter.

Consumption rate for sewer billing is the same as the water consumption for each given month.
